**F.No. 25/8/2023-MSB**

**Dated: 19.07.2023**

To,  
As per List

**Subject: India and UK joint workshop on Maritime Security, from 31<sup>st</sup> July 2023 to 03<sup>rd</sup> August, 2023 at Mumbai, India - reg.**

Sir,

The Directorate General of Shipping, Mumbai in collaboration with Department of Transport, United Kingdom is conducting a four day India and United Kingdom joint workshop on Maritime Security from 31st July 2023 to 03rd August 2023 at the Taj Mahal Hotel, Mumbai.

2. The workshop will be exploring crises management arising from maritime security incidents and involves expert speakers from both India and the UK. The tentative programme of the workshop has been enclosed for information.

3. It is requested to nominate one person per organisation at senior / middle management level dealing with the subject to participate in the workshop. Furthermore, additional persons from the organisation may register to attend the workshop in the virtual format. Only physical participants will be receiving a certificate for attending the four-day workshop for which there will be no cost to participants. However, registration through the link [www.tinyurl.com/marsec2023](http://www.tinyurl.com/marsec2023) (or using the following QR Code) is mandatory to attend the workshop in the physical or virtual format.

4. As physical seats for workshop are limited, the registered participants will be contacted by email by the Directorate with details of the seat booking confirmation. The confirmation email will have to be presented to gain entry at the venue. If physical seat registration is closed, those participants who have registered will have the option of attending the workshop virtually for which the link will be shared by email.

Yours faithfully,

(Capt. Anish Joseph)

Dy. Nautical Adviser -cum-

Sr. Dy DG (Tech/MSB)

Encl – As above.

# India-UK Maritime Security Workshop on Crisis Management

  
Department  
for Transport

**Dates :** Monday 31st July – Thursday 3rd August 2023

**Location :** Mumbai – Taj Mahal Palace | **Timings (daily):** 9am – 5pm

**Aim :** To share maritime security crisis management best practice

### Objectives

- Provide an overview of maritime security risks.
- Describe how to develop contingency plans for maritime security risks.
- Describe how to disrupt, identify, and respond early to maritime security incidents.
- Build a multi-agency response through the application of standard models and principles.
- Build an understanding of the roles and responsibilities of the organisations who may be involved in the response to maritime security crises.
- Identify opportunities to exercise maritime security crisis response plans.

### Participants

Roles	Organisations
A gender mixed group of up to 100 decision-makers involved in crisis response at the following levels: <ul style="list-style-type: none"> <li>• Strategic commanders/leaders</li> <li>• Tactical commanders</li> <li>• Operational commanders</li> </ul>	Organisations involved in a crisis response, likely to include: <ul style="list-style-type: none"> <li>• MOPSW/DGS</li> <li>• Port Authority /Port Facility Security Officers</li> <li>• Company / Ship Security Officers</li> <li>• Coastal State Administration / Marine Police</li> <li>• Fire service / Ambulance service</li> <li>• Indian Coast Guard &amp; Indian Navy</li> </ul>

### Learning Outcomes

- Understand maritime security risks, trend, and their impacts.
- Identify ISPS Code standards relating to contingency planning and crisis management.
- Describe how to develop contingency plans.
- Describe indicators of a potential security incident.
- Describe initial actions that can be taken in response to a security incident. Describe interoperability.
- Identify the common causes of failures at incidents.
- Identify relevant legal frameworks.
- Identify the roles and responsibilities of responders.
- Identify the different sources of information available to responders.
- Describe shared situational awareness and identify tools for building it.
- Describe a major incident and construct a M/ETHANE message.
- Describe the principles of joint working and apply them to a scenario.
- Identify the various communications methods and the challenges associated with each.
- Describe the individual parts of the Joint Decision Model and its application by responders.
- Identify a suitable model for briefing.
- Apply all the models and principles to a tabletop exercise.
- Describe incident debriefing.

### Methodology

1. Presentations - by Indian and UK expert speakers
2. Structured discussions
3. Multimedia
4. Scenario-based activities
5. Table-top exercise
